

# AUTOGAS

THE NEW GENERATION OF LPG FUEL FOR YOUR TAXI

AUTOGAS: the Australian fuel that will save you money and reduce emissions - all without compromising your Taxi's performance.

## AUTOGAS BENEFITS YOU

See the major benefits in these five key areas:

### AUTOGAS: The New Generation of LPG Fuel

The fuel is the same, but modern AUTOGAS vehicle systems have advanced technological features. Utilising the latest fuel injection systems to deliver; better economy, improved emissions and performance comparable to or better than a petrol vehicle.

Modern AUTOGAS vehicles enable you to significantly lower your driving costs, without compromising on performance.

### \$ A Fuel That Saves You Money

AUTOGAS is nearly 50% lower in price than petrol, combined with Taxi's averaging 150,000km annually, this results in thousands of dollars in savings every year!

#### Annual Fuel Cost

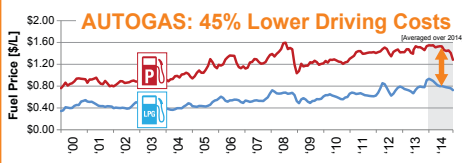

**Ford Territory Taxi**  
 AUTOGAS: \$16,310 per year  
 Petrol: \$27,234 per year

AUTOGAS saves:  
**\$10,924** per year

**Toyota Camry Hybrid Taxi**  
 AUTOGAS: \$8,315 per year  
 Petrol: \$11,544 per year

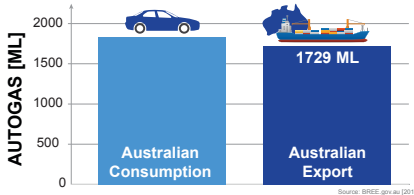

AUTOGAS saves:  
**\$3,229** per year

#### Fuel Price Trend

### An Australian Produced Fuel

AUTOGAS is an Australian fuel and Australia is a net exporter - providing you with fuel security.

### A Readily Available Fuel

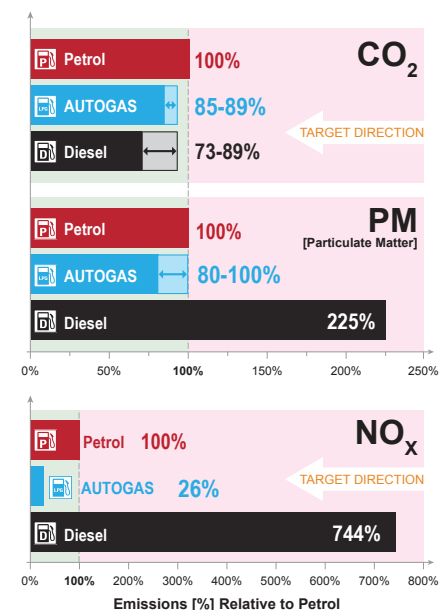

Australia's AUTOGAS infrastructure is well established. Combined with an extended dual-fuel driving range, filling up will always be a breeze.

**60.5%** of service stations sell AUTOGAS [2014]

### Environmentally Friendly Fuel

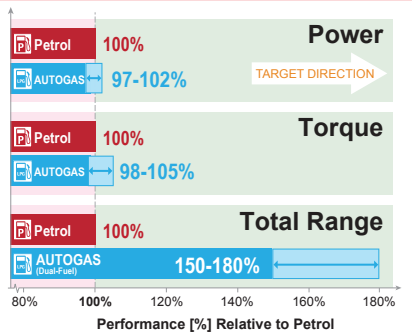

Modern AUTOGAS vehicles reduce CO<sub>2</sub> by 11-15% when compared to petrol.

Even more outstanding is the benefit of AUTOGAS when compared to diesel on air quality metrics; NO<sub>x</sub> [which is linked to acid rain] and Particulate Matter [PM; a declared carcinogen by the WHO] are both significantly higher from diesel cars and impact on the health of all of us today.

### Equal or Better Performance

How does the performance of AUTOGAS compare to petrol only? Modern AUTOGAS vehicles have power and torque similar to or better than petrol and with dual fuel, an AUTOGAS Taxi will take you further.
